This Is Why

My feet had barely touched the ground as I jumped from the Blackhawk helicopter in Iraq when my mind went into what would be best described as a vision. Let's call it a "strong impression." I visualized, almost in real time, the wooded area near the chopper landing zone, with grave sites partially covered in brush. Hundreds of them. It was so real in my mind I thought it was actual. As the blades slowed their rotation, I was immediately met by the FOB (Forward Operating Base) colonel with his hand extended in greeting and welcoming me on post.

My "vision" was so compelling that I interrupted his words of welcome and gushed, "There are bodies buried everywhere here! What is this place?"

He blinked in amazement, and without further attempt at small talk replied, "Your intel is spot on, Sir!"

We walked slowly out of earshot of anyone, and he told me this story...

"When we arrived here, we were met by people from the village standing in the street as a blockade yelling, 'Do not come into this place! It is a terrible place. Do not come here!' The place was one of Saddam Hussein's 'testing grounds for pesticides for agricultural use.' That was the story, but none of us believed it. We discovered later it was used as a testing place on humans for biological and chemical warfare. That's why the bodies are scattered throughout the brush area. Your intel was correct, Mr. Roever."

The Army occupied the place and forensic efforts proved their discovery to be correct. The buildings have bars on the windows. I commented to the colonel, "I guess they had to use bars to keep their heads of lettuce from being tested and escaping."

Happy Thanksgiving!

Take the time to be thankful. Choose to see the beauty in every day moments. Smile at the memories of loved ones who have passed. Find joy in the journey.

With God, all things are possible.
Matthew 19:26

At dinner that evening, we were discussing the state of mind of the troops that I was there to train in resiliency. This would not be an easy job because the spiritual atmosphere of the actual geographical location was so desperate that it was a dark night in the middle of day. Don't ever believe darkness does not prevail in places of such evil as Iraq and throughout the Middle East with their worship of gods other than the true God and His Son Jesus Christ!

While we were eating, a young lady, estimated to be 18 or 19 years old, stepped into the room. She was quite pretty and dressed in a modest dress without a burka over her head. She was not from the Middle East, but she was from the Midwest of the United States of America. I believe she was with YWAM, a missions organization that utilizes young people worldwide to share the gospel of Jesus Christ. My jaw dropped, and I almost dropped my fork! I looked at this beautiful young lady in the middle of one of the most horrifying and deadly villages in all of Iraq. It was a village that was now under the control of the United States Army to keep it from falling into the hands of the enemy again, and here's a teenaged young lady alone in this godforsaken war-torn country! What was she doing here?

She was sharing the powerful story of the gospel of Jesus Christ that was greater than any darkness of that present time and place!

It still proves my oft-stated point. "The M-16 has no power over the John 3:16!" While our US Army was trying to get control of a deadly and dark area of development of biological weapons of warfare, the area was already secured and under the authority and control of an 18-year-old young lady, full of the Holy Spirit.

I left feeling reassured that God's angel army is undefeatable! What the US Army was trying to do was already done by a teenaged Spirit-filled young lady!

You can see why the devil is trying so hard to destroy the youth of our country in abortion, gender confusion, unholy attractions, and God-hating college professors and teachers of kindergarten children spouting doctrines of devils. Political liars and fabricators of idiotic foolishness find no end in rebellion against God Himself, thereby trying to destroy the family's and the church's influence in our children's lives.

THAT'S WHY I GO TO SCHOOLS AND MILITARY INSTALLATIONS!

If I can help change some lives, and give hope in Christ to our youth, God can do with one of those people, full of His power, what an entire army with carnal weapons cannot do!

Our future lies in the hearts and minds of our children. Change a child and you change a generation.

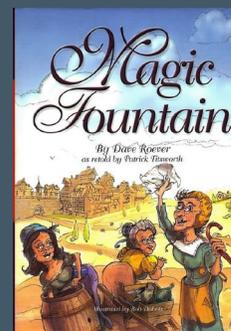

Thank you for faithfully helping me do what God has called me to do. In every life I minister to, you play a part. God sends me to schools, the military, and across the world, and you make it possible with your financial support. I cannot thank you enough! From the depth of my soul, I pray God pours out His blessings on you, your children, their children and their children...

Back in stock!

Magic Fountain

is an analogy of three old hags in their search for riches. What they find instead is...well, read it for yourself. You, your children and your grandchildren will NEVER forget the beautifully hand-drawn illustrations in this wonderful book of intrigue that will be a family heirloom for generations to come. Get it now in time for Christmas! I have a limited few. First come, first served!
